Re: KWMT(AM), Fort Dodge, Iowa
Facility Identification Number: 35891
Clear Channel Broadcasting Licenses, Inc.
Special Temporary Authorization

Dear Counsel:

This is in reference to the request filed September 8, 2006, on behalf of Clear Channel Broadcasting Licenses, Inc. (CCBL). CCBL requests further extension of the special temporary authority (STA) originally granted on April 19, 2002.¹ In support of the request, CCBL states that it has replaced its tower and completed adjustments and necessary field strength measurements, and that it is concurrently filing an application for direct measurement of operating power.

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

Our review indicates that Application BZ-20060908ADB is pending; thus, the licensee has made substantial progress toward restoration of licensed operation and extension of STA is warranted to allow time for processing the application.

¹ KWMT is licensed for operation on 540 kHz with 5 kilowatts daytime and 0.17 kilowatt nighttime, employing different directional antenna patterns daytime and nighttime (DA-2-U).

Accordingly, the request for STA IS HEREBY GRANTED. Station KWMT may continue to operate with parameters at variance and/or reduced power while maintaining monitor points within licensed limits. It is anticipated that an application on Form 302-AM will be filed prior to the expiration date below. CCBL must use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines. *See* 47 CFR § 1.1310.

This authority expires on **February 3, 2008**.

Sincerely,

A handwritten signature in black ink, appearing to read "Charles N. Miller". The signature is fluid and cursive, with the first name "Charles" being the most prominent part.

Charles N. Miller, Engineer
